

# Summer Time Trio Choices

Entering Grades 3–5      \$215

Brooks Crossing School

July 5–July 15, 2016

1:00 pm–4:00 pm

## 1:00 pm

### **Copper Art**

**Instructor: Inas Damir**

If you love art, come and experience a unique kind of art picture made from copper foil sheet. Design a one of a kind piece of art using copper foil sheet and wooden tools. Invent your own unique picture or you can trace one. It's new, it's different! Come see what all the fuss is about!

### **Crafts, Books & Movies**

**Instructor: Donna Sandell**

If your child enjoys a good book or movie and crafts then this is the perfect class for them. Children will have the opportunity to explore the world of entertainment through movies and literature. They will take themes and/or characters from these stories and create fun snacks and projects. For example, the movie, *Frozen*, is such a popular hit with the kids. After watching the movie the children will get to build their own snowman using marshmallows and pretzels. Popular books like the *Very Hungry Caterpillar* will be read and children will make caterpillars using grapes.

### **French**

**Instructor: Amel Ghobrial**

Parlez vous Français? Prepare your French for the upcoming years by learning grammar and new vocabulary to enhance your language skills whether you already know the language or have no previous knowledge of it.

### **Intergalactic Art & More**

**Instructor: Amanda Kestyus**

Do you love Outer Space – the beautiful moon and stars and all of the galaxy's amazing planets? Join us in this Galaxy themed class where we'll be exploring different parts of our solar system, how they work and what they do! Young explorers will have the chance to learn about and create their own fascinating components of our galaxy! We will be creating our own galaxies, mobiles, rockets, moon rocks, bottled nebula, galaxy oobleck, and more!

### **Paint Like a Pro**

**Instructor: Suzanne Tiedemann**

Have fun while creating impressive paintings you will be proud of! Learn how to make dynamic paintings of various subjects inspired by nature, animals, famous artists and of course your imagination! You will be using tempera paints, watercolor paints and more. If you were in this painting class last summer, feel free to register again as all painting lessons will be new and exciting!

### **Remote Control Wars**

**Instructor: Cory Slater**

Bring your remote control car and compete with your fellow classmates as this obstacle course twists and turns throughout the building. Will your car be first or eat the dust? Find out!

### **Soccer**

**Instructor: Steve Jeffries**

If you love soccer then you'll love this camp. Learn about first touch trapping to executing on set plays. We will implement the skill of misdirection and have tournament based competitions. By the end of this camp you'll feel like a STAR!!

### **Super Science in a Bag**

**Instructor: Belinda Epps**

Let's think like scientists do and perform several experiments and study our environment. We'll have fun with magnets and motors, learn more about H<sub>2</sub>O, create our own terrariums and much more.

# Summer Time Trio Choices

2:00 pm

## Arabic Language

**Instructor: Amel Ghobrial**

Learn one of the most popular languages in the world through listening and singing songs, as well as fun activities with fellow classmates. There won't be a single dull moment between songs and games!

## Drawing

**Instructor: Suzanne Tiedemann**

Learn how to create an exciting drawing that you will interact with! You will also learn to draw other various subjects inspired by fine artists and street artists using pencils, markers, pastels, chalks and more. Bring your imagination! If you were in this drawing class last summer, feel free to register again as all drawing lessons will be brand new!

## Explore the World of Wood

**Instructor: Inas Damir**

Designing many projects from different shapes of wood. Make a jewelry box, flowers, key chain, picture frame and more! All can be painted and decorated. You can demonstrate your talents in creating unique items for yourself, family or friends.

## iNews

**Instructor: Belinda Epps**

Come join us as we work as a team of reporters to develop exciting stories on news worthy summer events. Let's do interviews and research to "get the scoop" and have fun making our own summer newspaper.

## No Bake Cooking

**Instructor: Donna Sandell**

Does your child love to cook? Concerned with letting them use the oven? Then this is the perfect class to enroll them in. Kids will have the opportunity to learn how to make quick and simple snacks without ever using the oven. Perfect for learning ways to satisfy your sweet tooth or take a healthy snack and have some fun with it. A few project examples are rainbow fruit skewers, butterfly snack bags, watermelon cupcakes and banana dolphins.

## Playing Card Wars

**Instructor: Cory Slater**

Do you have a set of Pokémon cards or Magic The Gathering cards that you are just itching to battle others with? Bring them to this fun interactive group and see if you can come out on top. Anyone who participates must bring their own set of cards for Magic The Gathering or Pokémon.

## Timewarp Technique Art

**Instructor: Amanda Kestyus**

Do you love Van Gogh's "Starry Starry Night" or Claude Monet's impressionist work? Learn about various different time periods of art, different artists from these time periods, and learn how to recreate your very own piece of famous art from these artists and time periods. Young artists will learn how to incorporate different tricks and techniques to make their very own artwork from the past come alive. Some artists and time periods we will be exploring are Van Gogh, Monet, Warhol, impressionist art, abstract, contemporary art and many more!

## Ultimate Frisbee

**Instructor: Steve Jeffries**

Get ready to have a blast as you learn to work together with your fellow teammates perfecting your Frisbee toss and mastering your on-the-run catches as you try to outmaneuver the opposition with every pass. Join in on the Ultimate Frisbee wave of popularity by participating in exciting instructional games, incredible target drills, and then exploding into spontaneous team celebrations in the end zone during your matches, after you make the winning catch. Who knew throwing a Frisbee could be so much fun!

# Summer Time Trio Choices

3:00 pm

## **Cake Masters**

**Instructor: Belinda Epps**

Have your cake and eat it too! Learn how to frost and decorate like the pros do. You will be proud to take home your beautiful masterpiece.

## **Competitive Wii Games**

**Instructor: Cory Slater**

Come join us for fun, head to head competition in Competitive Wii Games. Can you handle going one-on-one with other classmates in Nintendo Wii based competitive games? The action will be intense.

## **Design Your Own Shirt**

**Instructor: Amel Ghobrial**

Come experiment and learn how to create a shirt with different colors, shapes and glitter! Add a picture to make your shirt uniquely yours!

## **Duct Tape Designers**

**Instructor: Inas Damir**

Come and see what duct tape can really do! There will be variety of duct tape projects to enjoy. See how much fun you'll have designing your own tote bag, picture frame, jewelry boxes, even your scrapbook and more, so join in the joy of designing your own accessories.

## **Floor Hockey**

**Instructor: Steve Jeffries**

Have you ever wanted to feel the joys of scoring a wrist-shot goal in hockey, but could not, due to your inability to ice skate like the pros? Well, throw away your skates, put on your sneakers, and join our amazing Floor Hockey program, where you get to practice the art of weaving while shooting, the bliss of executing the perfect pass, and best of all, experiencing the thrill of one-touch scoring. With all of these new skills, you and your teammates should have no problem in our daily, hockey tournaments that always end in good fun and anticipation for the next days' events. Don't be surprised if you never want to play hockey on ice again!

## **Games, Games, Games**

**Instructor: Donna Sandell**

The perfect opportunity for your child to explore the world of games and have a little fun, this class offers the exploration of video games, card games, group games, and board games. Each day offers a chance to learn new games or play some of the classics. For example there will be several days dedicated to playing board games including Apples to Apples, Monopoly, Life, and Clue. Another day group games such as 4 Corners, Chinese Bulldog, Steal the Bacon, and Charades Tag will be the main focus. The gaming world offers endless opportunities for children to stay engaged with each other and this class intends on taking advantage.

## **Sculpture**

**Instructor: Suzanne Tiedemann**

Have fun creating and painting 3D forms! Build 3D sculpture animals, monsters and more using cardboard, wire, wood, papier mache, plaster craft, clay and recycled materials. You will bring your sculptures to life by painting them with tempera paints!

## **Smudge It To Life!**

**Instructor: Amanda Kestyus**

Not your typical drawing class! Instead of learning just basic drawing techniques young artists will learn the basics and how to add depth, dimension, and perspective to their artwork by implementing the use of charcoal and pastels for that extra special "real-life" look to their drawings! You will learn basic drawing techniques, as well as how to "smudge" or shadow your drawings to make them come alive! Learn how to recreate famous works of art, landscapes, and even a self-portrait! Young artists will learn lighting and shadowing techniques to create beautiful dimensional pieces of art that pop right off the page!
