Students with Math and/or English on "B" days

- April 25th - May 7th

Students are expected to participate in the PARCC Assessment. Passing a standardized assessment is a New Jersey Department of Education graduation requirement. The requirement varies by graduation year. Specific requirements can be found here (http://www.sbschools.org/parents_students/docs/NJDOE_High_School_Graduation_Requirements.pdf). Please keep in mind that our participation rates and scores are measured by the NJDOE and compared to other local, county and state schools. If your son or daughter will not participate in the PARCC Assessment this spring, the bottom portion of this form must be completed and returned to the main office by **April 4, 2018**. Students who have not taken the PARCC Assessment must meet the NJDOE graduation requirement for testing by demonstrating proficiency through an approved alternative assessment listed below.

Your child will remain in the classroom, and will be allowed to leisurely read. Students will be expected to remain quiet and in the classroom until the testing period concludes. Your child is encouraged to bring his or her own reading material.
