

Dear Parents/Guardians and Students:

To use any technology for our educational program, students must have this signed agreement on file. Please read this together, and acknowledge through the Genesis Parent Portal.

Statement of Purpose for Parents

The South Brunswick School District (SBSD) believes that all students should have access to technology tools, resources, and services when they act in a responsible, efficient, courteous, and legal manner. Internet access and other online services, available to students and teachers, offer a multitude of global resources. Our goal in providing these services is to enhance the educational development of our students.

We educate students about appropriate online behavior in an ongoing manner including awareness and response to cyberbullying, and as appropriate, interacting with others on social media and networking sites.

In addition, while on the school network, we take steps to:

- Block access by students to inappropriate matter on the Internet and the World Wide Web.
- Monitor the safety and security of students when using electronic communications.
- Prevent unauthorized access, including “hacking,” and other unlawful activities by students online.
- Prevent unauthorized disclosure, use, and dissemination of students’ personal information.
- Measure restricting students' access to materials harmful to them.
- Filter and monitor Internet use on school networks.
