

OUR GOAL:

After a full evaluation of all new and/or potentially new residential construction, decisions surrounding school grade level configurations and redistricting of sending areas will be established and thoroughly communicated to all stakeholders.

WHEN WE SUCCEED IN 2025:

- The district will have a clear and articulated plan for any anticipated or actual growth.
- School Community stakeholders will be or have been involved in the learning and process of the large-scale decisions making that will need to occur if construction projections are accurate.
- Buildings will be ready or plans to make them ready will have been established to house all students in conducive learning environments.

WHY THIS MATTERS: South Brunswick has shared that there is the potential for up to 5,000 new homes being constructed in the township by 2026. The school district would not be able to house the increase of students from these homes within our current buildings and grade level configurations.

INITIAL IDEAS AND ACTIONS:

- Work with a demographer to determine expected impact on new construction as well as basic demographic study
- Create a web-based presence when issues of potential referendums, redistricting or reconfiguring come to light.
- Ultimately develop a full plan of action for making determinations about possible construction, redistricting and reconfiguration.

Timeline and Next Steps

-  Research/Discovery
-  Transition Period
-  Implementing

SY 2019-2020
(July - December)

SY 2019-2020
(January - June)

SY 2020-2021

SY 2021-2022

2019-2020: Continue to meet with the Township regarding new construction. Make a decision on the timing of when to bring in a demographer

SY 2020 - 2021: Continue to monitor (Timing of action steps are linked to construction news)

SY 2021 - 2022: Continue to monitor (Timing of action steps are linked to construction news)
