

South Brunswick Community Center
Presents
SPRING BREAK CAMP

DATE: APRIL 22 -26, GRADES: K-5
9AM- 12PM: REMOTE CONTROL ROBOTS

Making it move is the name of the game at this exciting camp! Kids will love to see their creations in motion using LEGO® wireless remote controls & also through coding. Each day, campers will use fascinating and challenging LEGO® components to create dynamic vehicles, inventions, machines and more. As they enjoy the fun of building, campers will understand the basic working principles of many ingenious devices that are part of our everyday lives. Campers will also learn how to magnify, diminish and redirect force to move objects at different speeds and in different directions.

1PM – 4PM: EXTREME NINJA W/LEGO ROBOTIC FIDGET SPINNER

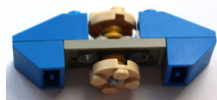

Come play with all the new LEGO® Board Games & Ninjago characters! In addition to playing with Ninjago Ninjas & all the fun LEGO® board games, we will be tapping into our imagination and discovering our creativity as we attempt to create anything related to games out of LEGO® Bricks, for example, we will make replicas of game boards like tic-tac-toe, famous video game characters & more. What game can you come up with? And it comes along with the **LEGO ROBOTIC FIDGET SPINNER** – Is your kiddo into fidget spinners?
